deconex® 41 CLEAR

Acidic, ecological rinse aid

For use in washing machines

Application

deconex® 41 CLEAR is used for rinsing laboratory glassware and labware in washers after the cleaning step. deconex® 41 CLEAR is also used for reprocessing of medical instruments. However, this application is restricted to places where the quality of the water for the final rinse does not allow the use of a neutral rinse aid.

Properties

deconex® 41 CLEAR neutralizes residues of alkaline solution and prevents lime deposits in the machine as well as water spots on washed items. Carefully selected surfactant compounds lend the product excellent wetting and clear rinsing properties.

In particular, glassware is provided with a nice shine. Moreover, the application of deconex® 41 CLEAR accelerates the drying process of washed goods.

Ingredients

Organic acids, surfactants

Dosage

0.5-1.5 mL/L
depending on washing goods and on the quantity of alkaline residues

For reprocessing of medical instruments the dosage should be well controlled in order that the pH does not fall below 6.

Material compatibility

Suitable for:
Laboratory glassware, ceramics, stainless steel, aluminium, synthetic material

For materials not mentioned please make your own specific compatibility tests or consult Borer Chemie AG.

Chemical-physical data

pH	1% solution in demineralized water	approx. 2.6
Density	concentrate	1.09 g/mL
Appearance	concentrate	transparent, colorless

deconex® 41 CLEAR

Availability

Please ask your local representative about current container sizes.

Containers, screw caps and labels are made of recyclable polyethylene. Dosing aids such as pumps, dispenser, measuring jugs etc. are available. Please ask for corresponding documents.

Storage and transport

Store the product at temperatures between 5 and 25 °C.

This medical device is frost-sensitive. Avoid whenever possible transportation of this product during the cold periods. If transport during such periods is inevitable, this product must be shipped using temperature controlled lorry / sea container above 5° Celsius, or use protection hoods for short-time transports not longer than 10 hours with transport temperatures not falling below minus 5°C.

CE marking

deconex® 41 CLEAR satisfies the requirements for medical devices in accordance with the regulation (EU) 2017/745.

Additional information

For information concerning safety at work, storage and waste disposal/effluent, please consult the corresponding safety data sheet.

If a serious incident occurs with this product, it must be reported to the manufacturer and the responsible authority.

Take advantage of our vast know-how! Please, contact us for further information regarding your specific application.
